

Apply Add K Smoothing where $K=0.3$ to all 4 models you developed in the previous assignment and test it on your test and validation/development sets. Use the following formula for Add K smoothing.

$$P_{add-k}(w_i | w_{i-N+1}^{i-1}) = \frac{C(w_{i-N+1}^{i-1}, w_i) + k}{C(w_{i-N+1}^{i-1}) + k \cdot V}$$
